

# Current Problems

No Content Moderation

No Lease Dashboard

No Financial Dashboard

Not ideal Upgrade Path

Current Providers Issues

# Content Moderation

Implement Management API in Akash provider service

Implement management API in Praetor

Implementing moderation API in Akash Provider service

# Lease Dashboard

Show all the current and past leases

Allow providers to close lease

Allow providers to choose not to host lease from certain wallet

# Financial Dashboard

Show financial dashboard to Providers

Show current month and upcoming projections based on leases.

Show historic lease financial data

Use Airflow to store historic data or Integrate with indexers like Cloudfm

# Helm Upgrade

Non-Praetor Provider can access Praetor's existing and new features

Install New Provider with Helm

Upgrade existing Providers to helm

Will help upgrade providers to the latest features

Will able to deliver new Akash upgrade rapidly

Praetor Providers will be able to get Insider Support

# Misc Features

Integrate moderation API - Allow to ban image based leases for new and existing providers

Add Persistent storage for existing provider using dashboard

Support Akash EDU program with current and new curriculums
